

# Egg Hunting in Cicle Inicial

Last Tuesday, 9th of April, the students from 1st and 2nd Grade participated in an Easter egg hunt. Like every year the Easter bunny came to school to hide some Easter eggs for the kids from each colour. By colour teams they looked for them and after so much fun and team work they found all the eggs carefully hidden in the gardens.

First, they had to solve several riddles to get the clues to find the eggs. Every team had to find 10 Easter eggs from their own colour, in each garden, in order to find the next clue. After solving them and finding all the eggs in the gardens, they discovered the way to the chocolate eggs.

Finally, we took the chocolate eggs to class and each kid could finish the delicious "*Mona*" that they had previously started preparing with their teachers. We had a lot of fun and hope you enjoyed the "*Monas*" at home.

The English team wishes you a Happy Easter!
